Requests Granted

By Supervisor Yaki, that letter be sent to the General Manager, Municipal Railway, requesting information on their policies and procedures for identifying avoidable accidents and for placing drivers on disciplinary action and how to determine what is the appropriate discipline for an avoidable accident.

By Supervisor Yaki, that letter be sent to the City Attorney requesting an opinion concerning what remedies are available to the Board of Supervisors regarding better labeling and signage on certain types of video games. The request comes in the wake of the tragic shooting rampage in Littleton, Colorado. There are reports that the two teenage gunmen were avid players of certain extremely violent video games. The question has been raised as to how much these games may have influenced their fascination with violence and may have affected their judgment in carrying out the massacre on their classmates. Does the Board of Supervisors have the ability to help raise the level of consciousness for parents and other adults who buy such games for young people on how these games may impact kids who play them.

By Supervisor Ammiano, that letters be sent to the Director of Public Health and Director of Human Resources notifying them a hearing to consider the escalating costs of enrollment in health care plans has been introduced and referred to the Finance and Labor Committee of the Board of Supervisors.

By Supervisors Brown, Bierman, that letter of inquiry be sent to the General Manager, Recreation and Park Department, concerning development of a frisbee golf course, to determine what date the citizens of San Francisco can anticipate as the opening day.

By Supervisors Brown, Bierman, that letter of inquiry be sent to the General Manager, Recreation and Park Department, concerning development of a skateboard park, to determine whether or not a site has been selected and the extent to which budgeting for design and construction are reflected in the Recreation and Parks budget request.

By Supervisors Katz, Bierman, that letter be sent to the Director, Department of Parking and Traffic, concerning the feasibility of short-term median car parking on Valencia Street to alleviate traffic congestion and safety for bicyclists because of double parking.

Requests Granted

By Supervisor Becerril, that letter be sent to the Director, Department of Real Estate regarding the undeveloped air rights of City owned properties and requesting that an inventory of such undeveloped air rights be compiled for study. The inventory should include appropriate recommendations and parameters outlining suitable development from the Planning Department's current zoning controls.

By Supervisor Becerril, that letter be sent to the Fire Chief asking about Department plans for Fiscal Year 1999-2000 for the maintenance of Landmark 89, Firehouse Engine Co. #2, at 1152 Oak Street, in order to make the site compliant with landmark regulations contained in the Planning Code.

By Supervisor Becerril, that letter be sent to the Police Chief asking what outreach and education is conducted by the Police Department to inform non-English speaking residents about the availability of multi-lingual operators on the 911 (Emergency) and 553-0123 (Non-Emergency) lines. Residents of Chinatown recently testified before the Housing and Social Policy Committee that there is currently no way to report emergency and non-emergency situations in Chinese. Community members may be unaware of current city services or wary of using them. A targeted educational campaign may be helpful in encouraging community members to report crimes and other safety issues and in bringing to the fore any problems with existing services for non-English speakers.

By Supervisor Becerril, that letter be sent to the Director, Planning Department, inquiring as to the number of existing as well as projected housing units within a quarter mile of a major transit corridor.

By Supervisor Newsom, that letter be sent to the Presidio Trust, Attention: Dick Tilles, 34 Graham Street, P. O. Box 29052, asking what could be done to ameliorate hazardous traffic conditions through Julius Kahn Playground, including better signage and enforcement of speed laws, and how the City and County could help in this endeavor.

By Supervisor Teng, that letter be sent to the City Attorney requesting draft legislation be prepared implementing Assemblyman Kevin Shelley's legislation (AB 1191) enabling the City and County to raise the fine for motorists who fail to properly stop at a STOP sign.

Requests Granted

By Supervisor Brown, that letter be sent to the City Attorney requesting draft legislation be prepared to prohibit loitering in 236 non-profit housing developments in the City.

By Supervisor Brown, that letter be sent to the City Attorney requesting draft legislation be prepared that models the anti-trespassing ordinance presenting being considered by the city of Antioch and which would include a fine and jail sentence for convictions of panhandlers.

By Supervisor Katz, that letter be sent to the Director, Department of Technology and Information Services and to the Committee on Information Technology requesting that each research, evaluate and then work together to establish a computer pilot program for select City Departments that will track and monitor worker's compensation claims. Currently, there is little or no monitoring of worker's compensation claims, leaving the system open for fraud. Reports indicate the recent launch of a new software package capable of managing worker's compensation claims. A computer pilot program could assess problems, inconsistencies and reoccurrences of claims and give departments the necessary information for enforcement.

By Supervisor Katz, that letter be sent to the Director, Planning Department regarding the feasibility of requesting that buildings allow bicyclists access to freight elevators to transport their bicycles. Currently, many buildings do not allow bicycles to be transported in elevators because of space issues. Elevators are very crowded with people, and bicycles take up much needed space. In order to not contribute to crowding in elevators, freight elevators may be a viable option for bicyclists to transport their bicycles to upper levels of a building.

By Supervisor Katz, that letter be sent to the Director, Emergency Communications Department, the Police Chief, the Taxicab Commission and the Taxicab Task Force requesting that each research and evaluate the feasibility of developing a pilot program to put 911 emergency alarms or small cameras in taxicabs. A button alarm, one placed in the back seat for passengers and one placed in the front seat for the driver, would provide access to emergency assistance in a threatening or dangerous situation; and the installation of cameras would provide monitoring and recording of situations that occur in a taxi. Currently, there is no ability for a taxicab driver or a passenger to directly signal for help when inside a taxi, nor is there any type of monitoring device.

By Supervisor Katz, that letter be sent to the Director, Department of Technology and Information Services and the Committee on Information Technology requesting that each research and evaluate the feasibility of a portal web site, connected to CitySpan, which would showcase San Francisco, via the Internet, and promote our status as the interactive leader across the globe. The goal of this web site would be to market San Francisco as the premiere city of choice for businesses nationally and internationally. Yahoo! Internet Life magazine recently named San Francisco the nation's most wired city for the second year in a row. This award is a tribute to the City's tech-savvy citizens and the City's new media sector, which continues to flourish. Unfortunately, the award does not speak to the City's Internet presence itself, which lacks the status of cities such as New York, Austin, and many other cities that are competing for jobs and business. The new site will not replace the current CitySpan site, which is a great site for City services. Rather, the new site will promote, attract and retain businesses in San Francisco and link directly to CitySpan. This project could also provide an exciting public/private partnership opportunity between the City and the members of the interactive business community sharing knowledge and expertise.

By Supervisor Katz, that letter be sent to the members of the Appropriations Committee of the State Assembly reiterating the Board's support of Assembly Bill 222, the Dignity for All Students Act and urging the legislature to pass the bill and the Governor to approve it.

By Supervisor Kaufman, that letter be sent to the City Librarian, Regina Minudri, who is at UCSF Hospital expressing the thoughts and best wishes of the Board for a speedy recovery from her recent stroke.

By Supervisor Kaufman, that letter be sent to the San Francisco School Board members encouraging the Unified School District to work with Department of Parking and Traffic to improve the City's school crossing guard program. The Board's Budget Analyst has found the need for greater oversight of crossing guards as well as improved recruitment and retention of staff in the program. The Supervisor asks that the Unified School District assist the City in solving the current deficiencies in the program before the start of the new school year this fall.

By Supervisor Newsom, that letter be sent to the Director, Department of Parking and Traffic, asking what measures it is taking to address the anticipated increase in traffic surrounding the Presidio, given the Presidio Trust's plans for development. In addition, strongly urging the Department to coordinate with the Trust around this issue and to be present at future planning meetings hosted by the Trust.

By Supervisor Newsom, that letter be sent to the Police Chief and the Police Department Taxi Detail requesting statistics on the number of taxi drivers who have been arrested for assault or violent behavior during the past five years. In addition, asking if the Taxi Detail could perform a more rigorous background check and/or ongoing or updated check to investigate the criminal or violent background of potential drivers.

By Supervisor Newsom, that letter be sent to the City Attorney requesting preparation of a resolution to place a stop sign at the intersection of Broderick and Union Street.

By Supervisor Newsom, that letter be sent to the Taxi Commission, with a copy to Marianne Costello, c/o Scoma's Restaurant, Pier 47, San Francisco, asking if the report on taxi driver safety being heard in the Commission on June 8 could be expanded in scope to include the topic of passenger safety.

By Supervisor Becerril, that letter be sent to the General Manager, Department of Public Transportation regarding whether or not the use of Automatic Vehicle Locators on MUNI trains and buses will improve the response time when a MUNI driver or operator calls in to report a medical emergency or criminal activity. Further, what is the potential use of the NEXT Bus system in locating vehicles during a medical emergency or criminal activities on MUNI trains and buses.

By Supervisor Becerril, that letter be sent to the General Manager, Department of Public Transportation regarding existing procedures used during emergencies on MUNI trains and buses. The report should address the following: 1) Current procedures for operators and drivers when reporting medical emergencies and criminal activity; 2) Elapsed time between when an operator or driver reports an emergency or crime in progress and when notification of police, fire and/or other emergency personnel occurs; and 3) Use and installation of silent alarms in trains and buses.
